

Sparrow

The Sparrow kiosk is suitable for a number of retail and similar applications where a variety of peripherals are required but space is a limiting factor. The Sparrow is a compact, durable and easy to handle kiosk originally designed for wall mounted installation, but which can now be converted to free standing using the optional support leg conversion kits.

General Description:

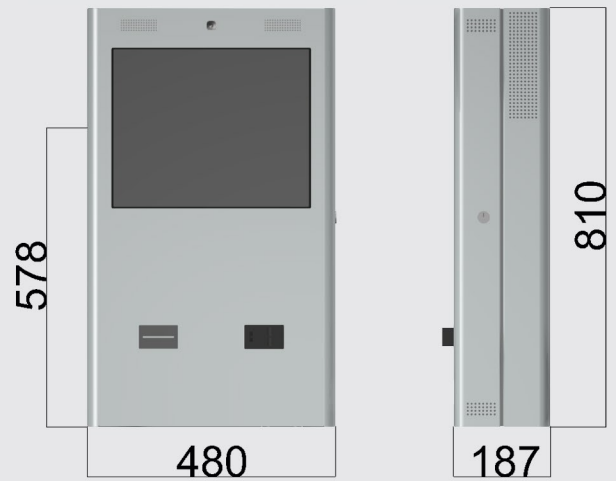

- Welded metal construction using 1,5mm thick steel
- Wide Colour Choice
- Flexible solution for additional peripherals
- Fully secured wiring is installed for maximum user safety and kiosk hardware protection
- Dimensions basic version: 568(H) x 475(W) x 174(D) mm.
The final dimensions depend on the number and size of the required peripherals.

Standard Specifications:

- 19" LCD with touch screen
- Metal Keyboard with Trackball
- Small Factor Size PC in custom configuration
- Active speakers

Sparrow Sparrow
